Development and application of an enzyme-linked immunosorbent assay for acid stable trypsin inhibitor (ASTI) in human plasma (167) 155

## Clinica Chimica Acta, Vol. 167

## Subject index

**AChE/BChE ratio**

Cholinesterase activities; Hirschsprung's disease (Caussé, E. (167) 51)

**Acid  $\alpha$ -glucosidase**

Glycogenesis II; Immunoprecipitation (Tsuji, A. (167) 313)

**Acid stable trypsin inhibitor**

Enzyme-linked immunosorbent assay; Urinary trypsin inhibitor (Yoshida, E. (167) 155)

**Actin**

Vitamin D-binding protein; Gc-globulin; Hepatocellular carcinoma; Liver (Egawa, T. (167) 273)

**Acute intermittent porphyria**

Cimetidine;  $\delta$ -Aminolevulinic acid (Horie, Y. (167) 267)

**Acute phase protein**

Severe burn; Concanavalin A-Sepharose; Microheterogeneity; N-Glycans (Mallet, B. (167) 247)

**Acute phase reaction**

HDL; Myocardial infarction; Pancreatitis acute (Fahie-Wilson, M. (167) 197)

**Affinity chromatography**

Familial amyloidotic polyneuropathy; Prealbumin; Variant forms of prealbumin; High performance liquid chromatography (Ikegawa, S. (167) 165)

**Albumin**

Uremia; Bromcresol purple (Mabuchi, H. (167) 89)

**Albumin, T4 analog binding to**

Radioimmunoassay; Mass action theory; Association constant; Variation, source of (Midgley, J.E.M. (167) 67)

**Aldolase**

Liver disease; Hepatoma; Liver function test; Metastatic liver disease (Royds, J.A. (167) 237)

**Alkaline phosphatase**

Human placenta; Phosphatidate (Sumikawa, K. (167) 321)

 **$\delta$ -Aminolevulinic acid**

Acute intermittent porphyria; Cimetidine (Horie, Y. (167) 267)

**Amniotic fluid**

Sex steroid-binding protein (SBP); Human pregnancy (Auzelle, M.-P. (167) 43)

**Apolipoprotein A-IV**

Chronic renal failure; Hemodialysis; Catabolism; Low molecular mass protein (Seishima, M. (167) 303)

**Arginine tolerance test**

Glucagon-like peptide-1; Glucagon-like immunoreactivity; Glucagon immunoreactivity; Glucagon-secreton family (Hirota, M. (167) 293)

**Association constant**

Radioimmunoassay; Mass action theory; Albumin, T4 analog binding to; Variation, source of (Midgley, J.E.M. (167) 67)

**Autoxidation**

Tetrahydrobiopterin; Cerebrospinal fluid; HPLC (Howells, D.W. (167) 23)

**Average of patients**

Quality control; Statistics; Trend analysis; Endocrinology; Radioimmunoassay (Douville, P. (167) 173)

**Bromcresol purple**

Albumin; Uremia (Mabuchi, H. (167) 89)

**Calcium absorption**

Calcium-binding protein; Human small intestine; Crypt-villus axis (Staun, M. (167) 31)

**Calcium-binding protein**

Human small intestine; Calcium absorption; Crypt-villus axis (Staun, M. (167) 31)

**Calcium oxalate**

Urolithiasis; Urinary macromolecule; Crystal growth; Crystal aggregation; Whole human urine (Edyvane, K.A. (167) 329)

**Caloric value**

Fasting in children, prolonged; Fuel metabolism; Cerebrospinal fluid; Glucose; Lactate; Ketones (Lamers, K.J.B. (167) 135)

**Catabolism**

Apolipoprotein A-IV; Chronic renal failure; Hemodialysis; Low molecular mass protein (Seishima, M. (167) 303)

**Catalase**

Human blood (Lamoureux, G. (167) 105)

**Cerebrospinal fluid**

Tetrahydrobiopterin; Autoxidation; HPLC (Howells, D.W. (167) 23)

Guanidino compounds; Renal failure; Renal insufficiency; Uremia; Serum (De Deyn, P.P. (167) 81)

Fasting in children, prolonged; Fuel metabolism; Glucose; Lactate; Ketones; Caloric value (Lamers, K.J.B. (167) 135)

**Cholesterol**

Enzymatic; Immobilization; Flow injection analysis; Photometry; Fluorimetry; Serum (Fernández-Romero, J.M. (167) 97)

**Cholinesterase activities**

AChE/BChE ratio; Hirschsprung's disease (Caussé, E. (167) 51)

**Chronic renal failure**

Apolipoprotein A-IV; Hemodialysis; Catabolism; Low molecular mass protein (Seishima, M. (167) 303)

**Cimetidine**

Acute intermittent porphyria;  $\delta$ -Aminolevulinic acid (Horie, Y. (167) 267)

**Colonic cancer**

Lysozyme; Stools; Inflammatory bowel disease; Irritable bowel syndrome (Costongs, G.M.P.J. (125) 125)

**Concanavalin A-Sepharose**

Acute phase protein; Severe burn; Microheterogeneity; N-Glycans (Mallet, B. (167) 247)

**Crypt-villus axis**

Calcium-binding protein; Human small intestine; Calcium absorption (Staun, M. (167) 31)

**Crystal aggregation**

Urolithiasis; Urinary macromolecule; Calcium oxalate; Crystal growth; Whole human urine (Edyvane, K.A. (167) 329)

**Crystal growth**

Urolithiasis; Urinary macromolecule; Calcium oxalate; Crystal aggregation; Whole human urine (Edyvane, K.A. (167) 329)

**Diquat**

Paraquat; Urine; Plasma; Spot test (Woollen, B.H. (167) 225)

**DMD-carriers**

Duchenne muscular dystrophy; Erythrocyte 4-nitrophenylphosphatase (Goldemberg, A.L. (167) 211)

**Duchenne muscular dystrophy**

Erythrocyte 4-nitrophenylphosphatase; DMD-carriers (Goldemberg, A.L. (167) 211)

**Electrophoresis**

Lectins; Silver staining; Human; Serum (Thompson, S. (167) 217)

**Endocrinology**

Quality control; Statistics; Trend analysis; Radioimmunoassay; Average of patients (Douville, P. (167) 173)

**Enzymatic**

Cholesterol; Immobilization; Flow injection analysis; Photometry; Fluorimetry; Serum (Fernández-Romero, J.M. (167) 97)

**Enzyme-linked immunosorbent assay**

Acid stable trypsin inhibitor; Urinary trypsin inhibitor (Yoshida, E. (167) 155)

**Erythrocyte 4-nitrophenylphosphatase**

Duchenne muscular dystrophy; DMD-carriers (Goldenberg, A.L. (167) 211)

**Familial amyloidotic polyneuropathy**

Prealbumin; Variant forms of prealbumin; High performance liquid chromatography; Affinity chromatography (Ikegawa, S. (167) 165)

**Fasting in children, prolonged**

Fuel metabolism; Cerebrospinal fluid; Glucose; Lactate; Ketones; Caloric value (Lamers, K.J.B. (167) 135)

**Flavocytochrome  $b_2$** 

Lactate; Yeast biosensor; Interference; Uric acid (Racek, J. (167) 59)

**Flow injection analysis**

Cholesterol; Enzymatic; Immobilization; Photometry; Fluorimetry; Serum (Fernández-Romero, J.M. (167) 97)

**Fluorimetry**

Cholesterol; Enzymatic; Immobilization; Flow injection analysis; Photometry; Serum (Fernández-Romero, J.M. (167) 97)

**Free radicals**

Superoxide anion; Transport; Phosphate (Webster, N.R. (167) 259)

**Fuel metabolism**

Fasting in children, prolonged; Cerebrospinal fluid; Glucose; Lactate; Ketones; Caloric value (Lamers, K.J.B. (167) 135)

**Gc-globulin**

Vitamin D-binding protein; Actin; Hepatocellular carcinoma; Liver (Egawa, T. (167) 273)

**Glucagon immunoreactivity**

Glucagon-like peptide-1; Glucagon-like immunoreactivity; Arginine tolerance test; Glucagon-secreton family (Hirota, M. (167) 293)

**Glucagon-like immunoreactivity**

Glucagon-like peptide-1; Glucagon immunoreactivity; Arginine tolerance test; Glucagon-secreton family (Hirota, M. (167) 293)

**Glucagon-like peptide-1**

Glucagon-like immunoreactivity; Glucagon immunoreactivity; Arginine tolerance test; Glucagon-secreton family (Hirota, M. (167) 293)

**Glucagon-secreton family**

Glucagon-like peptide-1; Glucagon-like immunoreactivity; Glucagon immunoreactivity; Arginine tolerance test (Hirota, M. (167) 293)

**Glucose**

Fasting in children, prolonged; Fuel metabolism; Cerebrospinal fluid; Lactate; Ketones; Caloric value (Lamers, K.J.B. (167) 135)

 **$\gamma$ -Glutamyltranspeptidase ( $\gamma$ -GTP)**

Glycylproline dipeptidyl aminopeptidase (GPDA); Hepatocellular carcinoma; Placenta (Kojima, J. (167) 285)

**N-Glycans**

Acute phase protein; Severe burn; Concanavalin A-Sepharose; Microheterogeneity (Mallet, B. (167) 247)

**Glycogenesis II**

Acid  $\alpha$ -glucosidase; Immunoprecipitation (Tsuji, A. (167) 313)

**Glycylproline dipeptidyl aminopeptidase (GPDA)**

$\gamma$ -Glutamyltranspeptidase ( $\gamma$ -GTP); Hepatocellular carcinoma; Placenta (Kojima, J. (167) 285)

**Guanidino compounds**

Renal failure; Renal insufficiency; Uremia; Serum; Cerebrospinal fluid (De Deyn, P.P. (167) 81)

**HDL**

Acute phase reaction; Myocardial infarction; Pancreatitis acute (Fahie-Wilson, M. (167) 197)

**Healthy subjects**

Magnesium; Intracellular content; Mononuclear cells (Reinhart, R.A. (167) 187)

**Hemodialysis**

Apolipoprotein A-IV; Chronic renal failure; Catabolism; Low molecular mass protein (Seishima, M. (167) 303)

**Hepatocellular carcinoma**

Vitamin D-binding protein; Gc-globulin; Actin; Liver (Egawa, T. (167) 273)

**Glycylproline dipeptidyl aminopeptidase**

(GPDA);  $\gamma$ -Glutamyltranspeptidase ( $\gamma$ -GTP); Placenta (Kojima, J. (167) 285)

**Hepatoma**

Aldolase; Liver disease; Liver function test; Metastatic liver disease (Royds, J.A. (167) 237)

**beta-Hexosaminidase**

Proliferative retinopathy; Type 1 diabetes (Agardh, C.-D. (167) 37)

**High performance liquid chromatography**

Familial amyloidotic polyneuropathy; Prealbumin; Variant forms of prealbumin; Affinity chromatography (Ikegawa, S. (167) 165)

**Hirschsprung's disease**

Cholinesterase activities; AChE/BChE ratio (Caussé, E. (167) 51)

**HPLC**

Tetrahydrobiopterin; Autoxidation; Cerebrospinal fluid (Howells, D.W. (167) 23)

**Human**

Lectins; Silver staining; Serum; Electrophoresis (Thompson, S. (167) 217)

**Human blood**

Catalase (Lamoureux, G. (167) 105)

**Human placenta**

Alkaline phosphatase; Phosphatidate (Sumikawa, K. (167) 321)

**Human pregnancy**

Sex steroid-binding protein (SBP); Amniotic fluid (Auzelle, M.-P. (167) 43)

**Human small intestine**

Calcium-binding protein; Calcium absorption; Crypt-villus axis (Staun, M. (167) 31)

**Immobilization**

Cholesterol; Enzymatic; Flow injection analysis; Photometry; Fluorimetry; Serum (Fernández-Romero, J.M. (167) 97)

**Immunoglobulin**

Lactate dehydrogenase isoenzyme; Lactate dehydrogenase-immunoglobulin complex; Isoenzyme specificity; Sandwich electroimmunofixation (SEIF); Recombination assay (Kanemitsu, F. (167) 147)

**Immunoprecipitation**

Glycogenosis II; Acid  $\alpha$ -glucosidase (Tsuji, A. (167) 313)

**Inflammatory bowel disease**

Lysozyme; Stools; Irritable bowel syndrome; Colonic cancer (Costongs, G.M.P.J. (125) 125)

**Interference**

Lactate; Yeast biosensor; Flavocytochrome  $b_2$ ; Uric acid (Racek, J. (167) 59)

**Intracellular content**

Magnesium; Mononuclear cells; Healthy subjects (Reinhart, R.A. (167) 187)

**Irritable bowel syndrome**

Lysozyme; Stools; Inflammatory bowel disease; Colonic cancer (Costongs, G.M.P.J. (125) 125)

**Isoenzyme specificity**

Lactate dehydrogenase isoenzyme; Immunoglobulin; Lactate dehydrogenase-immunoglobulin complex; Sandwich electroimmunofixation (SEIF); Recombination assay (Kanemitsu, F. (167) 147)

**Ketones**

Fasting in children, prolonged; Fuel metabolism; Cerebrospinal fluid; Glucose; Lactate; Caloric value (Lamers, K.J.B. (167) 135)

**Lactate**

Yeast biosensor; Flavocytochrome  $b_2$ ; Interference; Uric acid (Racek, J. (167) 59)

Fasting in children, prolonged; Fuel metabolism; Cerebrospinal fluid; Glucose; Ketones; Caloric value (Lamers, K.J.B. (167) 135)

**Lactate dehydrogenase-immunoglobulin complex**

Lactate dehydrogenase isoenzyme; Immunoglobulin; Isoenzyme specificity; Sandwich electroimmunofixation (SEIF); Recombination assay (Kanemitsu, F. (167) 147)

**Lactate dehydrogenase isoenzyme**

Immunoglobulin; Lactate dehydrogenase-immunoglobulin complex; Isoenzyme specificity; Sandwich electroimmunofixation (SEIF); Recombination assay (Kanemitsu, F. (167) 147)

**Lectins**

Silver staining; Human; Serum; Electrophoresis (Thompson, S. (167) 217)

**Liver**

Vitamin D-binding protein; Gc-globulin; Actin; Hepatocellular carcinoma (Egawa, T. (167) 273)

**Liver disease**

Aldolase; Hepatoma; Liver function test; Metastatic liver disease (Royds, J.A. (167) 237)

**Liver function test**

Aldolase; Liver disease; Hepatoma; Metastatic liver disease (Royds, J.A. (167) 237)

**Low molecular mass protein**

Apolipoprotein A-IV; Chronic renal failure; Hemodialysis; Catabolism (Seishima, M. (167) 303)

**Lysozyme**

Stools; Inflammatory bowel disease; Irritable bowel syndrome; Colonic cancer (Costongs, G.M.P.J. (125) 125)

**Magnesium**

Intracellular content; Mononuclear cells; Healthy subjects (Reinhart, R.A. (167) 187)

**Mass action theory**

Radioimmunoassay; Association constant; Albumin, T4 analog binding to; Variation, source of (Midgley, J.E.M. (167) 67)

**Metastatic liver disease**

Aldolase; Liver disease; Hepatoma; Liver function test (Royds, J.A. (167) 237)

**Microheterogeneity**

Acute phase protein; Severe burn; Concanavalin A-Sepharose; N-Glycans (Mallet, B. (167) 247)

**Mononuclear cells**

Magnesium; Intracellular content; Healthy subjects (Reinhart, R.A. (167) 187)

**Myocardial infarction**

HDL; Acute phase reaction; Pancreatitis acute (Fahie-Wilson, M. (167) 197)

**Pancreatitis acute**

HDL; Acute phase reaction; Myocardial infarction (Fahie-Wilson, M. (167) 197)

**Paraquat**

Diquat; Urine; Plasma; Spot test (Woollen, B.H. (167) 225)

**Phosphate**

Free radicals; Superoxide anion; Transport (Webster, N.R. (167) 259)

**Phosphatidate**

Alkaline phosphatase; Human placenta (Sumikawa, K. (167) 321)

**Photometry**

Cholesterol; Enzymatic; Immobilization; Flow injection analysis; Fluorimetry; Serum (Fernández-Romero, J.M. (167) 97)

**Placenta**

Glycylproline dipeptidyl aminopeptidase (GPDA);  $\gamma$ -Glutamyltranspeptidase ( $\gamma$ -GTP); Hepatocellular carcinoma (Kojima, J. (167) 285)

**Plasma**

Paraquat; Diquat; Urine; Spot test (Woollen, B.H. (167) 225)

**Prealbumin**

Familial amyloidotic polyneuropathy; Variant forms of prealbumin; High performance liquid chromatography; Affinity chromatography (Ikegawa, S. (167) 165)

**Proliferative retinopathy**

beta-Hexosaminidase; Type 1 diabetes (Agardh, C.-D. (167) 37)

**Quality control**

Statistics; Trend analysis; Endocrinology; Radioimmunoassay; Average of patients (Douville, P. (167) 173)

**Radioimmunoassay**

Mass action theory; Association constant; Albumin, T4 analog binding to; Variation, source of (Midgley, J.E.M. (167) 67)

Quality control; Statistics; Trend analysis; Endocrinology; Average of patients (Douville, P. (167) 173)

**Recombination assay**

Lactate dehydrogenase isoenzyme; Immunoglobulin; Lactate dehydrogenase-immunoglobulin complex; Isoenzyme specificity; Sandwich electroimmunofixation (SEIF) (Kanemitsu, F. (167) 147)

**Renal failure**

Guanidino compounds; Renal insufficiency; Uremia; Serum; Cerebrospinal fluid (De Deyn, P.P. (167) 81)

**Renal insufficiency**

Guanidino compounds; Renal failure; Uremia; Serum; Cerebrospinal fluid (De Deyn, P.P. (167) 81)

**Rheumatoid factor**

(Dorner, R.W. (167) 1)

**Sandwich electroimmunofixation (SEIF)**

Lactate dehydrogenase isoenzyme; Immunoglobulin; Lactate dehydrogenase-immunoglobulin complex; Isoenzyme specificity; Recombination assay (Kanemitsu, F. (167) 147)

**Serum**

Guanidino compounds; Renal failure; Renal insufficiency; Uremia; Cerebrospinal fluid (De Deyn, P.P. (167) 81)

Cholesterol; Enzymatic; Immobilization; Flow injection analysis; Photometry; Fluorimetry (Fernández-Romero, J.M. (167) 97)

Lectins; Silver staining; Human; Electrophoresis (Thompson, S. (167) 217)

**Severe burn**

Acute phase protein; Concanavalin A-Sepharose; Microheterogeneity; N-Glycans (Mallet, B. (167) 247)

**Sex steroid-binding protein (SBP)**

Amniotic fluid; Human pregnancy (Auzelle, M.-P. (167) 43)

**Silver staining**

Lectins; Human; Serum; Electrophoresis (Thompson, S. (167) 217)

**Spot test**

Paraquat; Diquat; Urine; Plasma (Woollen, B.H. (167) 225)

**Statistics**

Quality control; Trend analysis; Endocrinology; Radioimmunoassay; Average of patients (Douville, P. (167) 173)

**Stools**

Lysozyme; Inflammatory bowel disease; Irritable bowel syndrome; Colonic cancer (Costongs, G.M.P.J. (125) 125)

**Superoxide anion**

Free radicals; Transport; Phosphate (Webster, N.R. (167) 259)

**Tetrahydrobiopterin**

Autoxidation; Cerebrospinal fluid; HPLC (Howells, D.W. (167) 23)

**Transport**

Free radicals; Superoxide anion; Phosphate (Webster, N.R. (167) 259)

**Trend analysis**

Quality control; Statistics; Endocrinology; Radioimmunoassay; Average of patients (Douville, P. (167) 173)

**Type 1 diabetes**

Proliferative retinopathy; beta-Hexosaminidase (Agardh, C.-D. (167) 37)

**Uremia**

Guanidino compounds; Renal failure; Renal insufficiency; Serum; Cerebrospinal fluid (De Deyn, P.P. (167) 81)

Albumin; Bromocresol purple (Mabuchi, H. (167) 89)

**Uric acid**

Lactate; Yeast biosensor; Flavocytochrome  $b_2$ ; Interference (Racek, J. (167) 59)

**Urinary macromolecule**

Urolithiasis; Calcium oxalate; Crystal growth; Crystal aggregation; Whole human urine (Edyvane, K.A. (167) 329)

**Urinary trypsin inhibitor**

Enzyme-linked immunosorbent assay; Acid stable trypsin inhibitor (Yoshida, E. (167) 155)

**Urine**

Paraquat; Diquat; Plasma; Spot test (Woollen, B.H. (167) 225)

**Urolithiasis**

Urinary macromolecule; Calcium oxalate; Crystal growth; Crystal aggregation; Whole human urine (Edyvane, K.A. (167) 329)

**Variant forms of prealbumin**

Familial amyloidotic polyneuropathy; Prealbumin

min; High performance liquid chromatography; Affinity chromatography (Ikegawa, S. (167) 165)

#### Variation, source of

Radioimmunoassay; Mass action theory; Association constant; Albumin, T4 analog binding to (Midgley, J.E.M. (167) 67)

#### Vitamin D-binding protein

Gc-globulin; Actin; Hepatocellular carcinoma; Liver (Egawa, T. (167) 273)

#### Whole human urine

Urolithiasis; Urinary macromolecule; Calcium oxalate; Crystal growth; Crystal aggregation (Edyvane, K.A. (167) 329)

#### Yeast biosensor

Lactate; Flavocytochrome  $b_2$ ; Interference; Uric acid (Racek, J. (167) 59)
